

## ***Brain Innovation Days COVID-19 Safety Guidelines***

Based on the fact that the COVID-19 risk is still a reality for everyone, we have developed a dedicated safety & security protocol that guarantees to each participant a safe & secure environment. A couple of management principles and measures are implemented for our event.

### ***Conditions to access our event?***

- All participants will need to present, at the entrance of the venue, an EU Digital COVID Certificate ([EU Digital COVID Certificate | European Commission \(europa.eu\)](#)) or a Belgian Covid Safe Ticket ([Covidsafe | Want to travel within the EU? Prove that you are...](#)).

### ***Prevention measures implemented during our event?***

- All participants will be asked to wear a face mask when walking around in the venue.
- The “Area 42” meeting center has been chosen to ensure fluid and safe crowd management, in all spaces of the venue.
- A concrete and efficient flux management plan has been developed to avoid bottlenecks during coffee breaks and lunch times.
- Comfortable chairs will be placed with a safe & reasonable distancing in all the meeting rooms that will welcome the participants.

### ***A safe & secure ambient air in all the rooms & spaces of our event!***

- All the open-spaces and rooms will be naturally and/or mechanically ventilated, permanently.
- In our plenary session room, where longer working sessions will take place, we will install air-sanitizers that will ensure a safe & secure ambient air for our participants, from the first to the last minute of our sessions. No need to insist on the fact that these sanitizers are safe and approved by the local health authorities!

### ***A team, on site, to assist our participants, should they feel unwell!***

- A team of trained and experienced safety & security officers will be onsite to assist our participants, should they feel unwell during the event.

### ***All the legal obligations and “COVID-rules” are respected ... a formal commitment of our team!***

- We have worked with local experts to ensure to our all our participants that the legal obligations, but also the COVID rules, are strictly respected by everyone, including our team members!
